

ROATAN 2025

June 7-June14, 2025

The island of Roatan, Honduras is one of the world's top scuba diving vacation destinations. Located in the western Caribbean Sea at the second largest barrier reef in the world, this exotic tropical island has everything for your SCUBA diving vacation, wreck diving, wall diving and much more. Take the plunge in crystal blue warm water and see the diversity of life that is everywhere. **Accommodations are at the CoCo View Resort** which is located on the protected south shore of Roatan. Coral reefs are in more shallow water, and experience calmer seas than the deeper and rougher north side. Because of its location on the windward side of the island the resort enjoys a near constant gentle breeze from the prevailing winds of the Caribbean.

PACKAGE INCLUDES:

8 days / 7 Nights Accommodations (overwater Cabana)
